Dear Ed,

Thanks for your 3/20 and the enclosed "Liberty Library" flyer on its book blaming the JFK assassination on Israel and the crazy Livingstone's craziness from the 9/95 Fourth Decade.

The book comes from the country's most prominent anti-Semite, Willis Carto, Mark Lane's pal and associate.

That the Fourth Decade could publish Livingstone's complaint that the world conspires against him is its own d self-description.

Giving Livingstone nine pages for it at that.

With nothing in it ~~checked~~ checked, defamatory and false as it is.

My letter to The Fourth Decade is without response. I'd been sent a copy earlier.

Nor has there been a word from Livingstone about it.

If it was before your time, Carto published what was to have been the American Mein Kampf, Francis Parker Yockey's Imperium.

Best,

Harold
